

A map of the state of Indiana is shown in a light gray color. Overlaid on the map are numerous small red dots, representing service locations. The dots are most densely clustered in the central-northern part of the state, around the Fort Wayne area, and are more sparsely distributed in the northern and southern regions. A white rectangular border highlights the central-northern area where the highest concentration of dots is located.

SERVICE AREA

.....

We believe in long-term solutions that last. Specializing in polished concrete floors and epoxy flooring, we work to be the leader in our city of Fort Wayne, IN and throughout the region. From brain-storming solutions to full guide specifications, contact us today for a quote or to chat about your next project.
